

AbsolutAire® E•Series*

Lean, Clean & Green

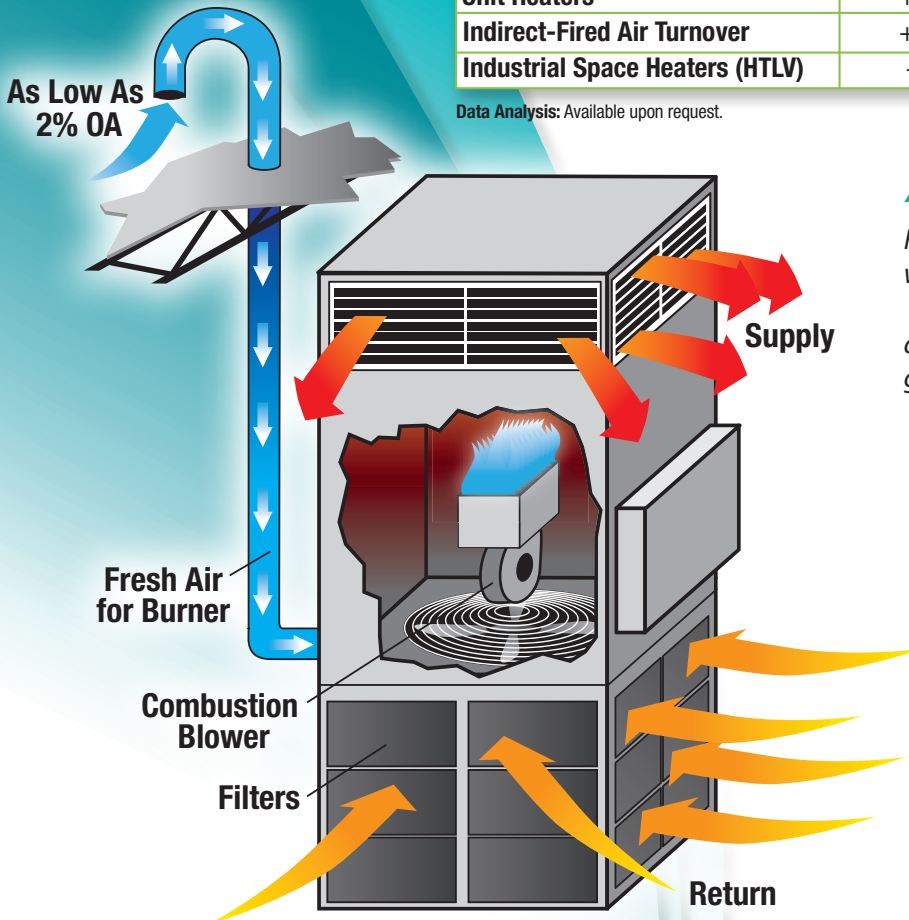

A True **Earth-First** Solution for Heating and Ventilating

Cut heating costs and emissions for business sustainability. Our industry-first innovation is your earth-first solution for superior commercial and industrial heating and ventilating. Unique and unprecedented, AbsolutAire direct-fired air turnover technology* is lean, clean and green with total energy efficiency. E-Series combines a 100%-efficient burner and highly efficient direct-drive VFD-controlled axial fans. No other heating system compares with E-Series for lowest installed cost, lowest energy usage and lowest emissions.

More Energy Efficient with Less Carbon Output

OTHER SYSTEMS ▶▶▶	Consume More Natural Gas	Consume More Electricity	Produce More CO ₂
Unit Heaters	+73%	+97%	+73%
Indirect-Fired Air Turnover	+25%	+7%	+25%
Industrial Space Heaters (HTLV)	+6%	+200%	+5%

Data Analysis: Available upon request.

Also, Fast Retrofit Payback

Replace less-efficient heating systems with AbsolutAire E-Series. Fast paybacks of installed costs, annual energy savings and reduced carbon emissions are three good reasons.
